LEARNING PATH CERTIFICATE

Qt Academy

This certificate is awarded to

Prosenjit Majumder Joy

For successfully completing

QML for Beginners

During this learning path, you have explored the fundamentals of QML development, gaining essential skills needed to create modern user interfaces. From Qt Quick Controls to debugging QML, you can now create and maintain applications using the Qt Framework. This journey has equipped you with the knowledge and experience to develop compelling user experiences using Qt and QML.

Completion Date:
