

LEARNING PATH CERTIFICATE

Qt Academy

This certificate is awarded to
Prosenjit Majumder Joy

For successfully completing
Connecting QML and C++

During this path, you have explored the integration between QML and C++, gaining the skills needed to bridge UI design with backend functionality. You've explored Qt macros, singletons, foreign types, and the Model/View architecture for exposing C++ data to QML views, preparing you to create robust and efficient applications that blend C++ backend capabilities with QML front-end components.
